REFERRING ASSOCIATION REPRESENTATIVE: _____

The Aurora Education Association is taking the Lead to **Reach, Teach and Inspire** Students to Shape a Successful Future.

We advocate for students

Students deserve strong, nurturing relationships that meet their needs and foster equity. Students contribute to the development of their thinking and learning and meet appropriately high expectations.

We support teachers

Teachers know good education is a craft, a science, and an art which inspires tomorrow's inventors, thinkers, and leaders. Teachers better the teaching profession through planning well rounded curricula and influencing education policy.

We believe in the promise of a quality public education

Communities want a wide-range of supporting professionals who benefit students through a variety of academic and social services. Communities want small classes to reduce the achievement gap and allow for personalized learning that recognizes student needs, stronger communication and relationships between teacher and student and teacher and parent/guardian.
